Campaign Overview

What

- CNL Securities launched a campaign test leveraging LinkedIn's Sponsored Updates functionality.

When

- Dec. 7, 2015 to Dec. 31, 2015

Why

- The goal of the campaign was to increase the number of LinkedIn followers among a specific target demographic.

Campaign Demographics

- Total audience: 201,000+
- Job Titles: 40 (Key titles: Financial Advisor, Investment Advisor, Financial Planner, Investment Consultant, Registered Investment Advisor, Wealth management Advisor)
- Industries: 3 (Financial Services, Investment Management and Insurance)

Total Budget = \$5,000

- LinkedIn provides users with two billing choices when delivering a Sponsored Update: cost-per-click (CPC) and cost-per-thousand-impressions (CPM). We chose the CPC model.
- Initial bid for each impression was \$9; final bid was \$15.
- Initial daily maximum spend was \$100; final daily maximum spend was \$250.

Campaign Logistics

Posts

- Four posts announcing two Practice Management articles were scheduled for a rotational distribution among our target audience starting in Dec. 7.
- Articles announced were “How to Keep Your Best Clients” and “Developing Your Client Appreciation Program.”
- Once distributed, posts with the highest performance were scheduled first in the rotation.
- In Dec. 14, two posts were removed from the rotation due to low engagement.

User Experience

- Three-step process to acquire any of the two articles:

Step 1: Click On Post

Once the post appeared on a LinkedIn member’s home page (i.e., an Impression), he or she had the option of following CNL Securities directly, as well as clicking on the post.

Step 2: Fill Out Form

After clicking on the post, readers were directed to Web Landing Page containing a form with required fields. Once completed, LinkedIn users were directed to a Confirmation Landing Page.

Step 3: Download Article

Finally, completing and submitting the form triggered Marketo to distribute an email containing the link to download the article.
